

Artstamp.dk on Iceland/by Sam Jedig

Stalke Out Of Space

The Corridor, Reykjavik

16.5 through summer 2014

Artstamp.dk on Iceland was the first major presentation of Artstamp.dk outside Denmark. The exhibition was realized at The Corridor in 2014 as part of Stalke Out of Space. The project's core concept became clear here: the postage stamp as a circulating artwork — a democratic and distributable form moving across borders, networks, and contexts. The exhibition marked the beginning of Artstamp.dk's international trajectory.
